

DECRA ROOFING SYSTEM

WHY IS IT GREEN?

- Made of steel, Decra products are durable, long-lasting and recyclable at the end of life.
- Decra Roofing System is 7 times lighter than traditional roofing systems – reduce structural material cost & usage, reduce the need for heavy lifting equipment and reduce construction time and transportation cost.
- Unbreakable tile – reduce unnecessary wastages, minimise construction waste, and waste disposal cost.

PRODUCT FEATURES

- Offers the look of shingle, shake, or traditional contours of clay and concrete tile but with the exceptional strength of a metal roof
- Achieves good acoustic values (<50 dBA under rain intensity of 100mm per hour)
- 5 roof profiles with a wide range of color choices
- Excellent color performance – coloured using natural volcanic stone chip that will not fade
- Able to accommodate all roof shapes, including curved features
- Unique roofing accessories that provide homogeneous & consistent look
- Leak proof roofing system – Decra tiles do not break, crack, curl or rot; a unique side flashing system prevents rainwater seepage through joints, and their unique horizontal interlocking fastening system can withstand wind speeds of up-to 120 mph (193 km/h)
- Use of Zinc-Aluminium Coated Steel (G300, AZ150) as base steel substrate provides superior corrosion resistance performance
- Provide security against break-in through roof without installing additional fittings at extra cost
- Long life cycle, require little to no lifetime maintenance with washable feature – easily wash away the tropical dirt & fungus on aged roof, reducing the need for repainting, and replacement in the long run

PRODUCT CERTIFICATION & COMPLIANCE

- ISO 9001, 14001 & OHSAS 18001 Standards
- BS 476 Part 6 & Part 7
- Energy Star® (Mist Grey colour only)
