

DECRA SKY TUNNEL

DECRA *Sky Tunnel*

Natural Light for Your Home

SEAMLESSLY MATCHES
DECRA ROOFING SYSTEMS

BEFORE
INSTALLATION

AFTER
INSTALLATION

WHY IS IT GREEN?

- DECRA SKY TUNNEL captures natural light through the attic into the home, and brightens the dark areas without the need of electricity.
- Providing a healthier indoor environment, while reducing energy consumption.

PRODUCT FEATURES

- DECRA SKY TUNNEL is a tabular day lighting technology which is installed in the roof of the buildings for evenly light transmission into dark areas of the buildings throughout the day – a fantastic alternative to artificial lighting.
- It has a unique dome and diffuser design delivers more light than most traditional skylights.
- It is a unique roof accessory by DECRA ROOFING SYSTEMS, which is mounted in a genuine DECRA profile base. It seamlessly matches your roof, and provides consistency and aesthetically appealing looks to your overall roof.
